

powder paint process:  
**98% paint recovery  
and reuse**

more recycled fabric  
**less to the landfill**

ISO 14001 CERTIFIED

LEED PARTNERSHIP

desking · seating · reception · filing  
**think global think green**

Epoxy Powder coating process is solvent free. No harmful VOC's or lead. No toxins are released into the atmosphere.

Global's recycled fabrics offer affordable, environmentally responsible alternatives to commercial textiles. We recycle 35,000 lbs of fabric offcuts weekly.

**leed partnership  
 program**

we've diverted  
**90% of our wood waste**  
 from landfill  
**in four years**

PROGRAM | GREENGUARD CERTIFIED

**THE ENVIRONMENT** We believe now more than ever, that it is our responsibility to protect the environment and our precious natural resources for future generations. The growing importance of energy and environmental concerns continues to challenge us in this ever changing marketplace.

As an industry leader, Global continues to take proactive steps towards reducing the negative impacts on the environment. We are building "healthier" offices; investing in Research & Development and new technologies; reducing waste and the consumption of energy; and improving the quality of the air we breathe, all which can have a significant impact on our quality of life.

Global has the products and resources to help your projects achieve LEED certification.

New technology allows us to reduce glue usage by 50%. In addition, our polyurethane glue reduces emissions and requires less energy to apply.
